Audialsense

Audialsense will set up a site-specific installation in the main lecture hall at the Department of Architecture and Spatial Design, London Metropolitan University, filling the space with dense chords of pure tone which will be held for three days. The frequencies of the sine waves are based on the wavelengths associated with the dimensions of the room. This is a long duration piece allowing visitors to walk amongst the standing waves, immersed in a soundscape of changing amplitudes and harmonies.

Opening times
26–28 March 2010
Friday 10am – 7pm
Saturday and Sunday 10am – 3pm

ASD Choir, John Butcher and Audialsense, Tambourine Trio

Saxophonist John Butcher, originally a physicist and a musician whose work ranges from improvisation and composition to the exploration of unusual site-specific acoustics, will be improvising to Audialsense's installation in the auditorium.

With a performance by wind ensemble Tambourine Trio and the ASD Choir who will perform traditional and experimental works from the 15th century to the present by Guillaume Dufay, William Cornyshe, King Henry VIII, Pierre Passereau, Jan Wuytack and Vaughan Williams, including an arrangement of Cathy Berberian's onomatopoeic piece *Stripsody* for choir and *Stimmung for voices and radio* by artist and ensemble member Sam Belinfante.

Bar opens 6.30pm
Doors: 7.00pm

Admission: £5.00
Tickets will be available at the door.
Seating in the Forum is limited.
To avoid disappointment, please
